South Dakota Board Report – October 2012  
Mike Mullin, SD State Rep

The *South Dakota Library Association* conference was held in Huron, SD October 3-5, 2012. The main item of discussion during the conference was the State of the State Library address made by Dan Siebersma, State Librarian on October 3<sup>rd</sup>. During his address to the members attending he informed them that there is an effort underway coming from the executive branch to eliminate the State Library. I have since learned that he was dismissed from his position on October 5<sup>th</sup>.

The *South Dakota Library Network* met during the conference to consider action on the RFP it has out for a new ILS. After many hours of discussion it was decided to postpone making a decision until November 1<sup>st</sup>.

The *South Dakota Titles To Go* committee met and decided to increase the number of items that a user may checkout. The committee also decided to sign up for the Overdrive WIN program.
